

General Motors Upfitter Integration

General Motors Upfitter Integration is instituting a new math data file delivery method called GM P2P File Delivery (a secure FTP process).

We will be eliminating the use of Fed Ex to provide Compact Discs (CDs) to customers. The move will be transitioning over the next few months and the intent is to get you completely set up before the process becomes mandatory.

As we continually strive to improve our service to you, we expect:

- Faster turnaround
- No more damaged CDs
- No cost to sign-up or use this service
- Very intuitive; User guide link provided
- The entire approval process typically takes approximately 5-7 business days

Use the link below to register

<https://p2pfd.ext.gm.com>

Important: When filling out the registration form use the following in the identified fields...

GM CONTACT: robert.j.casper@gm.com

GM FUNCTIONAL AREA: GLOBAL PRODUCT DEVELOPMENT

ADVISORY: Email use...P2P does not allow the use of public domain email addresses (e.g. user@gmail.com or user@yahoo.com). Additionally, no shared email addresses can be used (e.g. info@company.com). The email address must be in some form of the requestor's name at the company domain address (e.g. johndoe@company.com or Jdoe@company.com).

NOTE: Upon approval please notify us (robert.j.casper@gm.com), so that we may can prepare and upload the requested data files.

TO KEEP YOUR ACCOUNT ACTIVE, **YOU MUST LOG-IN EVERY 90 DAYS***.

*FAILURE TO LOG-IN EVERY 90 DAYS WILL RESULT IN YOUR NEEDING TO RE-APPLY AND DELAY GETTING YOUR FILES.

User Guide:
