About This Publication

This catalog is not updated during the model year and should not be used for ordering purposes. It is intended as a source of basic information. All illustrations and specifications in this literature are based on the latest product information available at the time of publication. General Motors reserves the right to make changes at any time without notice. For further details, consult your local dealer.

Care must be taken during customer installation of equipment and wiring to ensure that all holes drilled in the body are corrosion protected, properly sealed and that vehicle wiring harnesses, piping or other components have not been displaced or damaged. Aftermarket equipment installers must be mindful of applicable Federal Motor Vehicle Safety Standards. This information can be obtained directly from the National Highway Traffic Safety Administration. Adding non-dealer accessories or making modifications to the vehicle can affect vehicle performance, aerodynamics, and overall top speed. Please return all police vehicles to factory condition and settings upon decommissioning to prevent civilians from using these new 2026 calibrations, lighting and other features intended only for police and emergency customers. Wiring connection or splice changes are to be removed before the vehicle is returned to civilian use.

These vehicles are equipped with an airbag system. The airbag system in your police vehicle includes frontal driver and front outboard passenger airbags, front seat back side impact airbags and Head-curtain airbags for all rows in outboard seating positions. Customer installed equipment such as security barriers behind the front seats should not be mounted so that the barrier ends are within the side airbag deployment zones. The sensors and other components for the airbag system must not be relocated to accommodate the installation of customer furnished equipment; please refer to the service manual for sensor and other component locations. For information concerning instrument panel top pad mounted equipment and airbag system deployment zones, see the airbag information section in this catalog and the vehicle owners manual.

A note about vehicle alterations by independent suppliers: This catalog shows pictures of vehicles that have been altered or upfitted with equipment or components supplied to Chevrolet or its dealers by independent suppliers. GM is not responsible for the safety or quality of design features, materials or workmanship of any alterations by third parties.

UPDATES FOR 2026

NEW STANDARD FEATURES

- **VEHICLE-TO-HOME CAPABILITY¹ (V2H).**
- **Dual Level Charge Cord (PSC).** Previously Optional on 25MY BLAZER EV.

NEW OPTIONAL FEATURES

- **GM NACS LEVEL 2 ADAPTER (RYH) replaces (RYZ)**
- **NACS DC ADAPTER (RYU)**

1. The GM Energy Power-Shift Charger and GM Energy V2H Enablement Kit require an adequately charged and properly equipped GM EV having bidirectional charging capabilities, a properly equipped home and proper grid interconnection. Some eligible 24MY EVs will require a dealership or over-the-air update to enable bidirectional charging. Weather conditions, life of the battery, vehicle variation and usage, and other external factors may impact the duration of power supply. Power supply may be interrupted. It is not recommended that the following devices be powered with the GM Energy PowerShift Charger and V2H Enablement Kit: Medical Devices.

GM restricts the sale of police vehicles, and they are not to be sold to retail customers.

The dual motor all-wheel drive Blazer EV Police Pursuit Package has been designed for police work up to, and including, high-Speed emergency vehicle operations. GM restricts the sale of police vehicles, and they are not to be sold to retail customers. Developed for the needs of Law Enforcement, the purpose-built electrical architecture is explicitly prepared for the demands of emergency equipment. A standard 400-volt to 12-volt DC power module is dedicated to emergency equipment demands and is engineered for 100-amps of continuous load. This architecture provides two 20-amp relays in front row with a 30-circuit harness and 50-amp battery feed. One 40-amp, and one 30-amp relay are located in left cargo corner with a 56-circuit harness that shares 25-redundant front signals. 100-amps of battery service and a ground are also standard. Wiring circuits are also included in the front doors to accommodate aftermarket exterior side-view mirror emergency lighting in addition to rear quarter glass wiring provisions. All circuits include a factory connector. A universal vehicle module is provided for CAN readability of selected signals. Model 1MF26 is required when ordering 9C1 or 9C3 Police Package. Content, options and specifications shown are for the police version only which differ from retail civilian models. Speed/Torque Limiter is not available for PPV.

The 9C1 Marked Police Pursuit Package includes;

Front console delete, black rubberized vinyl floor covering and black cloth front and vinyl rear seating.

The 9C3 Detective Police Package includes;

Retail floor console with armrest, color-keyed carpeting in occupant area and black cloth front and rear seating with cup-holders.

The 9C1 and 9C3 Police Packages includes;

Firestone Firehawk Pursuit tires mounted on 20-inch steel wheels, 6-piston Brembo front calipers on 15.3-inch rotors for increased braking durability and performance during the rigors of a high-speed pursuit.

The 5W4 Special Service Package Option includes;

22" machined-face aluminum wheels with carbon flash painted pockets, 275/40R22 all-season self-sealing blackwall tires, non-asbestos organic brake lining and FNC brake rotor. This Brake and Tire package is not designed for Pursuits. 5W4 option for 2FL 9C3 requires 9C3 Package. Rear seat includes fold down armrest with dual cup holder. Not available on 9C1. Does not include floor mats.

STANDARD INTERIOR FEATURES

AIRBAGS⁴	Frontal, knee and seat-mounted side-impact for driver and front passenger, and roof-rail mounted head-curtain for outboard seating positions. Includes Passenger Sensing System for front passenger.
AIR CONDITIONING	Dual-zone automatic digital climate control. Rear passenger duct located on floor tunnel terminates at back of center console.
AIR FILTER	Pollutant, odor and fine dust.
ARMREST	(9C3 only) Front and rear center console armrest with cup holders.
ASSIST HANDLES	Front passenger and rear outboard.
AUDIO SYSTEM²	17.7" diagonal advanced color LCD display with Google built-in compatibility (select service plan required, terms and limitations apply), including navigation capability, connected apps, personalized profiles for each driver's settings, Natural Voice Recognition and Phone Integration.
BLUETOOTH®³	Personal cell phone connectivity to vehicle infotainment system.
BUCKLE TO DRIVE	Prevents vehicle from being shifted out of Park until driver seat belt is fastened; times out after 20 seconds and encourages seat belt use, can be turned on and off in Settings or Teen Driver menu. This feature is defaulted off for 9C1, 9C3 and 5W4 but can be turned on in the Infotainment menu.
CARGO TIE-DOWNS	2 cargo tie-downs in cargo area.
COMPASS	Shown in display.
CONSOLE, FLOOR	Console with armrest for 9C3 and 5W4 package (reference RPO code Deleted for 9C1 package (reference RPO code DLE),
CRUISE CONTROL	Electronic with set and resume speed.
DEFOGGER	Rear-window electric.
DOOR LOCKS	Power locks for front and rear doors. Rear child security locks.
DRIVER INFORMATION CENTER	11 inch diagonal display.
FLOOR COVERING	Black rubberized vinyl floor covering for 9C1 (reference RPO code BG9). Color-keyed carpeting in occupant area with black cloth front and rear seating for 9C3 and 5W4 (reference RPO code B30). Does not include floor mats.
REMOTE KEYS	Two REMOTE KEYS and mechanical keys for ignition and doors. Four additional fobs are available. While an unlimited number of learned REMOTE KEYS can operate Keyless start and Keyless open, for a particular vehicle, only the last 8 REMOTE KEYS learned to a vehicle will allow the REMOTE KEYS buttons to work. See Available Options page for ordering codes. See Optional Equipment page for programming procedure.
KEYLESS OPEN	Includes extended range REMOTE KEYLESS Entry. If the REMOTE KEYS battery is depleted or due to wireless interference, vehicle may be unlocked using the mechanical key in the drivers door lock cylinder.
KEYLESS START	Includes extended range REMOTE KEYLESS Entry.
LATCH SYSTEM	(Lower Anchors and Tethers for Children), for child child restraint seats.
GLASS	Acoustic, laminated front windshield. Side rear tempered, solar glazing.
GLOVEBOX	Passenger side.
LIGHTING	Front courtesy and dual reading lights. Rear roof, courtesy and dual reading lights.
MICROPHONE, WIRING	Provision located above headliner over driver position for customer supplied microphone and department radio.
OnStar® SERVICES CAPABLE	See onstar.com for details and limitations. Services vary by model. Service plan required.
OnStar® BASICS	Core OnStar services including; remote commands, built-in voice assistance, real-time traffic and navigation, and Automatic Crash Response for eligible vehicles with compatible software. Requires (UE1) OnStar. OnStar Basics is standard for 8 years; OnStar plan, working electrical system, cell reception and GPS signal required. OnStar links to emergency services. Service coverage varies with conditions and location. Service availability, features and functionality vary by device and software version. See onstar.com for details and limitations.

1. Always use seat belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner's Manual for more information.

2. Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Select service plan required, terms and limitations apply. Go to myChevrolet.com/learn About/bluetooth to find out which phones are compatible with the vehicle.

3. Go to myChevrolet.com/learn About/bluetooth to find out which phones are compatible with the vehicle.

STANDARD INTERIOR FEATURES (CONTINUED)

5G WI-FI HOTSPOT	Included and only available with (UE1) OnStar. Terms and limitations apply. See onstar.com or dealer for details. Service varies with conditions and location. Requires active service plan and paid AT&T data plan. See OnStar.com/BusinessSolutions for details and limitations. Availability subject to change. Vehicle must be on or in the accessory position for Wi-Fi to function.
POWER OUTLET	12-volt, Located in the center console compartment for 9C3 and 5W4 only. Not available on 9C1 package. Power outlets require the following GM dealer part numbers; 22936013, 13549534, 13561801 and installation.
REAR SEAT REMINDER¹	Activates when the a rear door is opened and closed just before or during vehicle use. Check the rear seat before exiting your vehicle. Can be turned off in in your vehicle's Settings menu.
SEAT BELTS	3-point, all positions, includes front and rear seat belt pretensioners.
SEAT BELT INDICATORS	Driver, front passenger and rear passengers.
SEATS, FRONT	Police specific black cloth bucket seats, driver 8-way power, passenger 6-way power, driver and passenger 2-way power lumbar.
SEATS, REAR	60/40-split, fold-flat. 9C1 in vinyl, 9C3 and 5W4 in cloth with center armrest & cup holders. Rear Seat Reminder.
SIRIUSXM WITH 360L²	Includes a trial subscription to the Platinum Plan. Requires (UE1) OnStar. The SiriusXM trial package is not provided on vehicles that are ordered for Fleet Daily Rental ("FDR") use. Trial subscription subject to the SiriusXM Customer Agreement and privacy policy. Visit www.siriusxm.com which includes full terms.
STEERING COLUMN	Tilt and telescopic.
STEERING WHEEL	Urethane. Audio, Driver Information Center and phone interface controls
TEMPERATURE DISPLAY	Outside temperature. Cabin humidity and windshield temperature sensor.
DETERRENT SYSTEM SYSTEM	Unauthorized entry alert and immobilizer.
TPMS	Tire Pressure Monitoring System with auto learn and Tire Fill Alert.
UNIVERSAL VEHICLE MODULE	Provides CAN Readability of selected messages utilizing SAE J1939 formatting. This gateway module offers 10-switchable inputs and outputs, and includes a graphical user interface available to customize specific needs with more than 90 operating parameters available to read.
USB CHARGING PORTS	For 9C3; 2 type-C located forward of cup-holders, 2 Type-C located within the center console armrest bin and 2 charge only type-C located on back of center console. For 9C1; USB-C port, harness and accessory power outlet can be added to aftermarket center consoles by purchasing GM Part Numbers 13561801, 22936013 and 13549534.
VENT	Rear Console, air. 9C3 only.
VISORS	Driver and front passenger illuminated sliding vanity mirrors, covered.
WINDOWS, POWER	Power driver and passenger with Express-Up/Down. Power rear with Express-Down.

STANDARD EXTERIOR FEATURES

ANTENNA	Roof-mounted shark fin (black).
CALIBRATION TAILLAMP	5LO Calibration for tail-lamp flasher Red/Red. For detailed technical information on activation of this feature, refer to the vehicle technical guide under the Body Builder Manuals section on www.gmupfitter.com .
CALIBRATION TAILLAMP	5J9 Calibration for tail-lamp flasher Red/White. For detailed technical information on activation of this feature, refer to the vehicle technical guide under the Body Builder Manuals section on www.gmupfitter.com .
CHARGE PORT	Manual.
DRL	Day Time Running Lights. See option code 9G8 for permanent delete.
DOOR HANDLES	Body color.
FRONT GRILLE	Gloss black.
FLASHER SYSTEM	Headlamp and tail-lamp, DRL compatible with individual control wires.
FOG LAMPS	Not available.
GLASS	Acoustic, laminated front windshield. Solar Absorbing rear side window and rear quarter panel window. Tinted rear lift-gate window.
HEADLAMPS	LED with automatic on and off.
LICENSE PLATE	Front mounting package (included on orders with ship-to states that require front license plate).
ROOF RAILS, DELETE	Not available. Roof rails deleted.
MIRROR CAPS	High gloss black.
MIRRORS, OUTSIDE	Outside heated, power-adjustable, power-folding, driver-side auto-dimming with turn signal indicators.
MOLDING	Door upper. Low gloss black.
REAR CAMERA WASHER	Included with Rear Camera Mirror.
REAR LIFTGATE	Manual.
RECOVERY HOOK³	One Threaded eye-bolt shipped loose for use on front or rear of vehicle.
TIRES	Firestone Firehawk Pursuit 265/50R20 all-season, V-rated, black-wall, (see Standard Features illustrations section)
TIRE, SPARE	Standard Inflator Kit (KIT). Spare Tire and Jack Assembly not available.
WHEELS	20" (50.8 cm) steel with bolted-on aluminum black center cap with black finish.
WINDSHIELD	Solar absorbing shaded upper with acoustic laminated glass .
WIPERS, WINDSHIELD	Front intermittent with Rainsense.

1. Does not detect people or items. Always check rear seat before exiting.

2. Trial subscription is subject to the Sirius XM Customer Agreement and privacy policy, visit siriusxm.com which includes full terms and how to cancel. All fees, content, features, and availability are subject to change. Some features require GM connected vehicle services.

3. To avoid the risk of injury, never use Recovery Hooks to tow a vehicle. For more information, see the Recovery Hooks section of your Owner's Manual.

STANDARD ELECTRICAL FEATURES

BATTERY, DRIVE	102 kWh Battery Rated Energy, 190 kW DC fast charging capable.
BATTERY, SERVICE	12V/60AH, 680 ENCCA.
DUAL LEVEL CHARGE CORD	Dual-mode, portable, 120-volt (1.4 kW) and 240-volt (7.7 kW) capability, swappable NEMA 5-15 and NEMA 14-50 plugs with SAE J1772 vehicle connection.
ELECTRONIC PRECISION SHIFT	The electronic precision shift includes an electric parking brake. In the event of a loss of 12-volt battery power, the electric parking brake cannot be released, and the vehicle cannot be shifted to N (Neutral). Tire skates or dollies must be used under the non-rolling tires to prevent damage while loading/unloading the vehicle. Dragging the vehicle will cause damage not covered by the vehicle warranty.
GOOGLE AUTOMOTIVE SERVICES	Included and only available with (UE1) OnStar.
HANDS-FREE START	Push the brake pedal after closing the door to start vehicle. The REMOTE KEYS authorizes the hands-free start system.
RADIO SUPPRESSION	Designed to prevent unwanted emissions and to minimize susceptibility and maximize immunity to external emissions (Electromagnetic (EMI) or Radio Frequency (RFI) Interference). Most emergency vehicle communications equipment operating at frequencies in the VHF Band (30-300 MHz) and up to frequencies in the UHF Band (300 MHz-3GHz) will function as intended without enhanced noise suppression.
REGEN ON DEMAND™¹	Helps convert the vehicle's kinetic energy into energy stored in the battery for later use to help get the most range.
REMOTE PANIC ALARM	Keyless remote panic button activates horn and flashing exterior lights. Can be disabled with optional (5J1) calibration.
REMOTE START	Key Fob activated. Smartphone app capable only with (UE1) OnStar.
SURVEILLANCE MODE	Calibration to shut-down non-federally mandated exterior and interior lighting (5J3). Exterior lighting will shut-off only if in auto mode and not equipped with optional LIGHTING DELETE (9G8). Cluster and PRND indicator dimmed to the minimum setting. Brake, reverse and turn signal lighting will override calibration and function if operated. For detailed technical information on activation of this feature, refer to the vehicle technical guide under the Body Builder Manuals section on www.gmupfitter.com .
UPFITTER WIRING PROVISIONS	See WIRING Section for Circuit Diagrams and connector information.
USB POWER, FRONT	For 9C3. 2 type-C USB ports located forward of the cup holders, USB 2 type-C USB located on back of center console, charge only and USB port type C located within center console armrest bin. For 9C1; USB-C port, harness and accessory power outlet can be added to aftermarket center consoles by purchasing GM Part Numbers 13561801, 22936013 and 13549534.

STANDARD MECHANICAL FEATURES

AC CHARGING	19 kW capable.
BATTERY PACK	Propulsion, 102 kWh Battery Rated Energy, 190 kW DC fast charging capable.
BRAKES	Front Brembo, 4-wheel antilock, performance disc brakes with non-FNC rotors.
COOLING	Heavy-duty cooling.
DUAL LEVEL CHARGING CORD	Dual-mode, portable, 120-volt (1.4 kW) and 240-volt (7.7 kW) capability, swappable NEMA 5-15 and NEMA 14-50 plugs with SAE J1772 vehicle connection.
PROPULSION	Electric performance dual-motor all-wheel drive (AWD).
SKID PLATES	Steel front and rear skid plates.
STABILITRAK	Stability Control System with Proactive Roll Avoidance and traction control, includes electronic trailer sway control and hill start assist.
STEERING	Power, non-variable ratio, eclectic.
SUSPENSION	Performance.
TRANSMISSION	Dual Motor All Wheel Drive System.
TRACTION CONTROL	Electronic.
VEHICLE-TO-HOME (V2H)	Can provide power to your properly equipped home in a blackout. The GM Energy PowerShift Charger and GM V2H Enablement Kit requires an adequately charged and properly equipped GM EV having bidirectional charging capabilities, a properly equipped home, and proper grid interconnection. Weather conditions, life of the battery, vehicle variation and usage, and other external factors may impact the duration of power supply. Power supply may be interrupted. It is not recommended that the following devices be powered with the GM Energy PowerShift Charger and V2H Enablement Kit; Medical Devices.

¹ Feature may be limited when the battery temperatures are extremely cold or hot or when battery is near full charge. See Owner's Manual for details

STANDARD SAFETY AND DRIVER ASSISTANCE FEATURES

HD REAR VISION CAMERA¹	HD Rear Vision Camera shows you a high-resolution digital image of the area directly behind your vehicle when in Reverse to help you park and avoid vehicles and objects. You can also display an overlay of where your vehicle is heading.
REAR CAMERA MIRROR¹	Inside rear-view auto-dimming. Includes Rear Camera Mirror Washer. Rear Camera Mirror allows user to choose between a traditional rear view mirror or a camera view unobstructed by the vehicle's pillars, trunk, roof, head restraints, rear-seat occupants and other interior aftermarket police equipment.
REAR PARK ASSIST¹	Rear Park Assist provides alerts of nearby detected vehicle and objects behind your vehicle to help you park and avoid collisions.
SAFETY ALERT SEAT¹	Safety Alert Seat uses left-, right- or both-side driver seat vibration pulses to help you detect and identify the direction of potential crashes. You can also switch to beeping crash avoidance alerts.

1. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle's owner's manual for more important feature limitations and information.

STANDARD 9C1, 9C3 PURSUIT TIRE FIRESTONE FIREHAWK ALL-SEASON BLACK-WALL HEAVY-DUTY 20" STEEL WHEEL

MANUFACTURER	QUANTITY	SIZE	SPEED RATING	TYPE
Firestone Firehawk	4	265/50R20	V Pursuit	All-Season Black-wall

NOTE:

Due to specific requirements for performance durability and safety, GM recommends only the original equipment tires for replacement.

Tire Plies = Tread 6 ply; 2 Polyester, 2 Steel, 2 Nylon, Sidewall, 2 Polyester

Tire Chains - If the vehicle is equipped with tire size 265/50R20, use tire winter traction devices only where legal and only when necessary. Only use textile traction devices, such as tire snow socks, that are the proper size for the tires. Traction devices must be installed only on the tires of the drive axle. Drive slowly and follow the traction device manufacturer's instructions. Driving too fast or spinning the wheels can damage the traction device.

OPTIONAL INTERIOR FEATURES

U5G	WI-FI HOTSPOT - Included and only available with (UE1) OnStar. Terms and limitations apply. See onstar.com or dealer for details. Service varies with conditions and location. Requires active service plan and paid AT&T data plan. See OnStar.com/BusinessSolutions for details and limitations. Availability subject to change. Vehicle must be on or in the accessory position for Wi-Fi to function.
R9L	REMOVES OnStar BASICS - Included and only available on vehicles being shipped to Puerto Rico, the Virgin Islands, or Guam. Will delete OnStar Services and OnStar standard equipment (OnStar Basics /Connected Access / EV Access /R9M Services i.e. OnStar One and OnStar One Super Cruise as equipped) for vehicles shipping to these territories.
6E2	REMOTE KEYS - Fleet Calibration, provides a single key and calibration with a specific code that is common to the driver door lock of the entire Blazer EV fleet with the same code. Key code is an alternate to SEO (6E8) Fleet Calibration. Includes (AU7) common fleet key. Requires (AMF) Remote Keyless Entry Package. Not available with SEO (6E8) complete vehicle fleet common key.
6E8	REMOTE KEYS - Fleet Calibration, provides a single key and calibration with a specific code that is common to the driver door lock of the entire Blazer EV fleet with the same code. Key code is an alternate to SEO (6E2) Fleet Calibration. Includes (AU7) common fleet key. Requires (AMF) Remote Keyless Entry Package. Not available with SEO (6E2) complete vehicle fleet common key.
AMF	REMOTE KEYLESS ENTRY PACKAGE - Includes 4 additional transmitters, NOTE: programming of remotes is at customer's expense. Programming remotes is not a warranty expense.
T53	LAMPS - Alternate flashing Red & Blue rear compartment lid warning (visible when lift-gate is open) and controlled by momentary lift-gate mounted switch or ground wire.
RIA	FLOOR LINERS - All-weather floor liners, front and rear. Not available with VAV. Not available on 9C1.
VAV	FLOOR MATS - All-weather floor mats. Not available with (RIA). Not available on 9C1.
6C7	LIGHTING - Red and white LED auxiliary dome lamp is located on headliner between front row seats. The auxiliary lamp is wired independently from standard dome lamp.
6N6	REAR DOOR LOCKS AND HANDLES INOPERATIVE - Rear power locks are inoperable at rear door but operate from drivers position, rear doors can be opened only from outside the vehicle. Includes (VBO) Kerr Industries Ship-thru to mechanically remove hardware linkage.
6N5	REAR DOOR WINDOW SWITCHES INOPERATIVE - Calibration for rear windows to operate from drivers position only. Window lockout switch remains illuminated in all positions when equipped with this feature.

OPTIONAL EXTERIOR FEATURES

VK3	LICENSE PLATE FRONT MOUNTING PACKAGE - Included on orders with ship-to states that require a front license plate.
AKP	LIFTGATE GLASS - Solar absorbing, non-tinted rear liftgate glass. Replaces tinted rear liftgate glass (AKO).
9G8	LIGHTING DELETE - Daytime Running Lamps and automatic headlamp control delete. Deletes standard Daytime Running Lamps and automatic headlamp control features, also disables automatic interior courtesy lighting.
ARU	REAR GLASS - Tinted rear window and rear quarter panel glass. Replaces solar absorbing non-tinted, rear window and rear quarter panel glass (ARS).
TGK	SPECIAL PAINT - One color. Required with any special paint selection. Required with any SEO paint selection. May require extended lead time.
5T4	SPECIAL PAINT - Victory Red WA-9260. Requires SEO (TGK) special paint solid.
9W5	SPECIAL PAINT - Silver Ice Metallic WA-636R. Requires SEO (TGK) special paint solid.
9V7	SPECIAL PAINT - Dark Blue Metallic WA-722J. Requires SEO (TGK) special paint solid.
9V2	SPECIAL PAINT - MSP Blue Goose WA-5665. Requires SEO (TGK) special paint solid.
6JE	BLUE LEFT/BLUE RIGHT WHELEN LED ION LIGHT PACKAGE - Two ION light heads mounted on each exterior corner. Not available with 6JG, 6J9 or 6J8.
6JG	RED LEFT/BLUE RIGHT WHELEN LED ION LIGHT PACKAGE - Two ION light heads mounted on each exterior corner. Not available with 6JE, 6J9 or 6J8.
6J9	RED LEFT/RED RIGHT WHELEN LED ION LIGHT PACKAGE - Two ION light heads mounted on each exterior corner. Not available with 6JG, 6J9 or 6J8.
6J8	WHITE LEFT/WHITE RIGHT WHELEN LED ION LIGHT PACKAGE - Two ION light heads mounted on each exterior corner. Not available with 6JG, 6J9 or 6J9.
VQK	SPLASH GUARDS - Front and rear molded splash guards.
7X3	SPOT-LAMP - Left hand, pillar-mounted unity, 6-inch with LED lamps; independently fused.

NOTE: Factory installation of spot-lamps are recommended. Special tooling is used to locate and drill the spot-lamp shaft hole in the pillars. (Interior trim covers provided with factory installed lamps are not available as service parts). Field installation of spot-lamps must not interfere with proper deployment of the roof rail mounted head-curtain airbags in the event of a crash.

OPTIONAL ELECTRICAL FEATURES

5J1	CALIBRATION - Disables the following standard features: Entry Lighting and Exit Lighting, Remote Keyless Entry Feedback (Horn Beep, Lamps Flash, and Panic Alarm).
1MP	SMARTPHONE APP REMOTE START - Only available with OnStar.
UTQ	THEFT DETERRENT SYSTEM DISABLE - The alarm and horn become non-functional in an attempt of theft to the vehicle. Recommended for vehicles utilizing 6E2 or 6E8 key codes.
WX7	WIRING - Auxiliary speaker. For upfitter connection to front door and windshield speakers.
6J3	WIRING - For grille lamps and siren speaker.
6J4	WIRING - For horn and siren.

OPTIONAL MECHANICAL FEATURES

5AV	GM ENERGY POWERSHIFT CHARGER¹ - Residential bidirectional EV charger; up to 19.2kW of charging, 80-amp, requiring a hardwired connection with 25' length cord included. Installation not included, professional install required for warranty. Not available with (5CH) GM PowerUp2 Charger.
5CH	GM POWERUP2 CHARGER¹ - Residential bidirectional EV charger; up to 11.5kW of charging, 40-amp (48-amp max), requiring a hardwired connection with 25' length cord included. Installation not included, professional install required for warranty. Not available with (5AV) GM Energy PowerShift Charger.
RYH	GM NACS LEVEL 2 ADAPTER - Residential AC adapter for use on NACS Level 2 chargers, including wall and mobile connectors. Intended for J1772 native inlet vehicle.
RYU	NACS DC ADAPTER - DCFC adapter for public use on NACS fast charging stations, including Tesla Supercharger, IONNA, EVgo etc. intended for CCS native inlet vehicle.
5W4	SPECIAL SERVICE PACKAGE - Includes (PHY) 22" machined-face aluminum wheels with carbon flash painted pockets, (QHN) 275/40R22 all-season self-sealing black-wall tires, (JBO) non-asbestos organic brake lining and (JFC) FNC brake rotor. When equipped, this option removes the pursuit rating. Brake and Tire pack age is not designed for Pursuit. Requires 9C3 Package which includes retail floor console, armrest, color-keyed carpeting in occupant area and black cloth front and rear seating. Not available on 9C1.
V92	TRAILERING PROVISIONS - Includes; Wiring, (CTT) Hitch Guidance and (PZ8) Hitch View.
SDE	TRAILER HITCH - Removable 2" (Class 2.) receiver. Requires (V92) trailering provisions and (VLG) trailer hitch trim bezel.
VLG	TRAILER HITCH TRIM BEZEL - Dealer installation trim. Requires (SDE) trailer hitch.

¹ The GM Energy PowerShift Charger and GM Energy V2H Enablement Kit require an adequately charged and properly equipped GM EV having bidirectional charging capabilities, a properly equipped home and proper grid interconnection. Some eligible 24MY EVs will require a dealership or over-the-air update to enable bidirectional charging. Weather conditions, life of the battery, vehicle variation and usage, and other external factors may impact the duration of power supply. Power supply may be interrupted. It is not recommended that the following devices be powered with the GM Energy PowerShift Charger and V2H Enablement Kit: Medical Devices.

5W4 SPECIAL SERVICE STREET APPEARANCE PACKAGE

OPTIONAL 5W4 WHEELS AND TIRES

NOT PURSUIT RATED

MANUFACTURER	QUANTITY	SIZE	SPEED RATING	TYPE
Michelin	4	275/40R22	Y	All-Season Self-Sealing Blackwall

NOTE:

Due to specific requirements for performance durability and safety, GM recommends only the original equipment tires for replacement.

EMISSIONS - ZERO EMISSIONS VEHICLE (ZEV)

FE9	Emissions - Federal requirements. Not available with FDR/FBC/FLS/FNR/FRC/FGO/TSC/TSR/TSM order types. These order types require (YF5) California State emissions requirements or (NE1) emissions and (NC7) emissions.
NF6	Emissions System - Zero emissions vehicle (ZEV). Standard for all BLAZER EVs.
NE1	Emissions - Massachusetts, New York, Oregon, Vermont and Washington State.
YF5	Emissions - California state requirements.
NB9	Emissions override - State-specific. For dealers ordering vehicles in (YF5) or (NE1) emission states - Massachusetts, New York, Oregon, Vermont, Washington State. Allows a California dealer (YF5 emissions) to order (NE1) emissions with (NB9) emissions override code for registration in (NE1) states; or, a Colorado, Delaware, Maryland, Massachusetts, New Jersey, New York, Oregon, Rhode Island, Vermont, Washington State and District of Columbia dealer (NE1 emissions) to order (YF5) emissions with (NB9) emissions override code for registration in California.
NC7	Emissions override - Federal. For vehicles ordered by dealers in Federal emission states with (YF5) or (NE1) emissions - Arizona, Connecticut, Idaho, New Jersey, Nevada, New Hampshire, Pennsylvania, Rhode Island and Utah. Requires (YF5) California state emissions requirements or (NE1) emissions states - Colorado, Delaware, Maryland, Massachusetts, New Jersey, New York, Oregon, Rhode Island, Vermont, Washington State or District of Columbia emissions requirements.

FE9 NAME CERTIFICATION EMISSION, FEDERAL

NE1 NAME CERTIFICATION EMISSION, GEOGRAPHICALLY RESTRICTED

YF5 NAME CERTIFICATION EMISSION, CALIFORNIA is certified to EPA Tier 3 BIN 70 standards and qualifies as ULEV 70 (Ultra Low Emission Vehicle) under California Air Resources Board (CARB) requirements, meaning it is 50-state certified.

EPA engine family or test group: MGMXT05.3388

OPTIONAL SHIP THRU

TBP	SHIP THRU - Produced in GM Ramos and shipped to Kerr Industries of Texas, Returned to GM Arlington Plant for shipping to final destination. Included with (6C7) Red and white LED auxiliary dome lamp, (6J8) White Left/White Right Whelen ION LED Lamp Package, (6J9) Red Left/Red Right Whelen LED ION Lamp Package, (6JE) Blue Left/Blue Right Whelen LED ION Lamp Package, (6JG) Red Left/Blue Right Whelen LED ION Lamp Package, (6N6) inside rear doors inoperative door locks and handles, (7X3) left- hand, LED spotlight or (T53) alternate flashing Red & Blue rear compartment lid warning lamps.
TVU	SHIP THRU - Produced in GM Ramos and shipped to Defender Supply. Shipped from Ramos to Argyle for upfit and back to Arlington for final assembly.
VCY	SHIP THRU - Produced in Ramos Arizpe Assembly, shipped to Auto Truck, Ft. Worth, TX for up-fit and back to Arlington for final assembly.

SPECIFICATIONS

DUAL MOTOR ALL WHEEL DRIVE

Model	1MF26
Projected top speed ¹ (mph/kph)	130/209
Projected stopping distance from 60mph (ft./m)	128/39
Projected top speed in reverse	25/40
Projected distance to reach top speed ¹ (miles/km)	0.76/1.22
Acceleration ¹ 0-20 mph (sec.)	1.66
Acceleration ¹ 0-30 mph (sec.)	2.48
Acceleration ¹ 0-40 mph (sec.)	3.30
Acceleration ¹ 0-50 mph (sec.)	4.13
Acceleration ¹ 0-60 mph (sec.)	5.08
Acceleration ¹ 0-70 mph (sec.)	6.21
Acceleration ¹ 0-80 mph (sec.)	7.59
Acceleration ¹ 0-90 mph (sec.)	9.27
Acceleration ¹ 0-100 mph (sec.)	11.23

RANGE ON A FULL CHARGE (Miles/Km)

EPA Estimated range on a full charge ⁷	286/460
GM Estimated range with emergency equipment ⁸	266/428

Note: EPA ESTIMATED ratings are official, not estimate based on GM testing

VEHICLE WEIGHT (lbs./kg)

Seating Capacity	2/3
GVWR ³ (Gross Vehicle Weight Rating)	6945/3150
FGAWR (Front Gross Axle Weight Rating)	1550/703
RGAWR (Rear Gross Axle Weight Rating)	1700/771
Payload without Trailer Hitch ⁴	1192/540
Payload with Trailer Hitch ⁴	1159/526
Base curb weight	5870/2663
Maximum Trailering Capacity ⁵	1000/454

FRONT COMPARTMENT (in./mm)

Head room	40.88/1038
Shoulder room, 1st row	58.70/1491
Hip room, 1st row	57.40/1458
Leg room, 1st row, max	44.20/1123

EXTERIOR (in./mm)

Wheelbase	121.80/3094
Overall length	192.62/4893
Overall width, without mirrors	78.02/1982
Overall width, including mirrors	86.50/2197
Overall height ⁶	64.78/1645
Lift in height ⁶ (Top of load floor to ground)	29.40/747
Front track width	65.90/1674
Rear track width	65.90/1674
Turning diameter curb to curb (ft./m)	39.7/12.1
Approach angle	19 degrees
Departure angle	22 degrees
Breakover angle	15 degrees
Ground Clearance	7.49/190
Overhang, front	35.09/891
Overhang, rear	35.37/898
Fording depth	12in/304.8mm @ 6.2mph/10kph

PASSENGER COMPARTMENT VOLUME (cu.ft./liters)

Passenger Volume Front Row	58/1642
Passenger Volume Second Row	25.7/728
Cargo Volume With Rear Seat Up	26.2/742

CARGO (in./mm)

Load floor length to center of front seat at floor	71/1804
Load floor length to center of 2nd seat at floor at seat	25/889
Inside width between wheelhouse	42/1067
Cargo area width	47.2/1200
Cargo area length	36.9/937
Cargo area height (headliner limited)	26.8/681
Cargo volume ² maximum behind front seat (cu. ft./liters)	591/1673.7
Cargo volume ² maximum behind second seat (cu. ft./liters)	25.5/722.2

REAR COMPARTMENT (in./mm)

Head room	38.10/968
Shoulder room	58.33/1482
Hip room	53.79/1366
Leg room	38.92/989

1. Based on 2025MY Michigan State Police Vehicle Test Results. All vehicles tested with clean roof and no additional equipment or added ballast. Adding non dealer accessories or making modifications to the vehicle can affect vehicle performance, aerodynamics, overall top speed and acceleration.

2. Cargo and load capacity limited by weight and distribution.

3. Gross Vehicle Weight Rating (GVWR). When properly equipped, includes vehicle, passengers, cargo and equipment.

4. These maximum payload ratings are intended for comparison purposes only. Before you buy a vehicle or use it to haul people or cargo, carefully review the vehicle loading section of the Owner's Manual and check the carrying capacity of your specific vehicle on the label on the inside of the driver's door jamb.

5. Maximum trailering ratings are intended for comparison purposes only. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner's Manual. The trailering capacity of your specific vehicle may vary. The weight of passengers, cargo and options or accessories may reduce the amount you can trailer.

6. Published dimension indicated is from ground and without optional equipment or accessories. Additional accessories or equipment ordered at the customer's request can result in a minor change in this dimension.

7. On a full charge based on development testing and/or analytical projection consistent with SAE J1634 revision 2017 - MCT. Range subject to change prior to production. Actual range may vary based on several factors, including ambient temperature, terrain, battery age and condition, loading, and how you use and maintain your vehicle.

8. On a full charge based on development testing and/or analytical projection consistent with SAE J1634 revision 2017 - MCT. Range subject to change prior to production. Actual range may vary based on several factors, including ambient temperature, terrain, battery age and condition, loading, and how you use and maintain your vehicle. EPA estimates not yet available.

SPECIFICATIONS

PROPULSION SYSTEMS

	STANDARD
Type	Dual Motor All Wheel Drive
Motor	2-Motor Permanent Magnetic Drive
Power on a full charge (hp/kW)	498/372
Torque on a full charge (lb.ft./Nm)	571/774

DRIVE BATTERY

Type	Rechargeable energy storage system with 12-module pack
Mass (lb / kg)	947 / 430

Suspension	Heavy-duty police-rated suspension with unique StabiliTrak performance calibration
Steering type	Power, non-variable ratio, electric
Steering ratio	15.98:1

SERVICE BATTERIES

Type	Maintenance free
BCI group size	LN1
Volts	12 V
Amp hour rating	50 ah
Reserve capacity	80 min
Cold cranking-amps	520 a

LEVEL 1 RESIDENTIAL CHARGING¹

120-Volt (7.7kW/32amps)	Provides up to 17 miles of range per hour
-------------------------	---

LEVEL 2 RESIDENTIAL CHARGING²

240-Volt (11.5kW/48-amps)	Provides up to 37 miles of range per hour
240-Volt (19.2kW/80-amps)	Provides up to 52 miles of range per hour

LEVEL 3 DC FAST CHARGING³

400-Volt 190 Kilowatt	Provides up to 71-miles of range in 10 minutes or 141-miles of range in 30 minutes
-----------------------	---

DC FAST CHARGING CAPABLE

1. Requires professional installation of a compatible outlet. Actual charge times will vary based on battery starting state of charge, battery condition, output of charger, vehicle settings and outside temperature. See the vehicle's Owner's Manual for additional limitations.
2. Requires public charge station or professionally installed dedicated charge station, sold separately. Actual charge times will vary based on battery starting state of charge, battery condition, output of charger, vehicle settings and outside temperature. See the vehicle's Owner's Manual for additional limitations.
3. Requires public DC Fast Charger. Actual charge times will vary based on battery starting state of charge, battery condition, output of charger, vehicle settings and outside temperature. See the vehicle's Owner's Manual for additional limitations.

STEERING WHEEL MENU CONTROLS

2026 BLAZER EV PPV (9C1/9C3) SPEEDOMETER CERTIFICATION/CALIBRATION

To Whom It May Concern:

The speedometer system in the 2026MY Police Blazer EV Vehicle is equipped with an electronically controlled speedometer which is designed to be accurate accurate to +/- 2mph (+/- 3 km/h) through its range of function. The Police Package speedometer is calibrated with XFD performance dual motor all wheel drive, electrified propulsion system and 265/50R20 SL V rated tires (QH9). Specifications are at temperatures of 10 to 120 F (23 to 49 C). Inaccuracies due to vehicle speed sensing are included.

GM specified vehicle maintenance is required to maintain the stated accuracy of the speedometer system. The accuracy of the speedometer system is dependent on and affected by the required vehicle maintenance including; following placard tire inflation pressure of 39 psi, monitoring tire wear as directed by the vehicle owner's manual, tire replacement with all-season Firestone Firehawk Pursuit 256/50 R20 tires, maintaining original OEM driveline ratios, maintaining original OEM electronic module calibration files and following vehicle loading limitations.

 Police Vehicle Program Manager

VEHICLE TOUCH SCREEN SETTINGS

VEHICLE PERSONALIZATION MENU

The Personalization Menu is accessed by:

Item setting

Important features in the VEHICLE SETTINGS sub-menu that can be changed are:

Rear Seat Reminder¹

Buckle to Drive

Collision Detection²

Comfort and Convenience

Lighting

Power Locks

Safety Alert Seat²

See the Owner's Manual for a complete Vehicle Personalization Menu listing of items that may be available for your vehicle.

1. Does not detect people or items. Always check rear seat before exiting.

2. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle's owner's manual for more important feature limitations and information.

UNIQUE CLOSURE LOCK/UNLOCK FUNCTION

OUTSIDE OF VEHICLE LOCK/UNLOCK FUNCTION

2nd Row Doors and Liftgate only lock/unlock with remote or interior front door courtesy switches:

- Designed to prevent unwanted entry into 2nd row or rear cargo areas in hostile crowds
- Side doors and liftgate unlocking handles operate separately

← The 2nd row doors and liftgate/glass can only be locked/unlocked with:

1. Remote Lock/Unlock button.
2. Front row interior courtesy switch Lock/Unlock buttons

1st Row Passive Entry button will only unlock the front row doors

2nd Row Passive entry button WILL unlock 2nd Row door if Remote is present. A double press of either the remote fob Unlock button, or interior courtesy switch Lock/Unlock buttons will unlock all doors, including the liftgate.

INSIDE OF VEHICLE LOCK/UNLOCK FUNCTION

The ETRS (shifter) door locking/unlocking function:

- Shift out of Park locks all doors and liftgate/glass
- Shift into Park unlocks front row doors and rear doors

Customizable in infotainment center, however this will not unlock 2nd row doors or liftgate

1st Row Doors interior courtesy switch locks/unlocks all the doors and liftgate/glass

2nd Row Door courtesy switches have no function

Note: default auto door locking is turned off

OTHER UNLOCKING COMMANDS

- OnStar unlocking commands unlocks all doors and liftgate
- Collision detection unlocks all doors and liftgate

STANDARD SAFETY & DRIVER ASSISTANCE FEATURES

SAFETY ALERT SEAT¹

The driver seat cushion may provide a vibrating pulse alert or audible beeping. To change settings from the infotainment screen, touch Settings > Vehicle > Collision/Detection Systems. Keep these areas of the vehicle clean and clear of obstacles to ensure the best driver assistance feature performance. Driver Information Center (DIC) messages may display when the systems are unavailable or blocked.

REAR PARK ASSIST¹

The cluster may display a Park Assist amphitheater-like display with bars that represent the estimated location of a detected object and the vehicle's distance from the object. As a detected object becomes closer, more bars light up and change color from yellow to amber to red. When an object is first detected in the rear, one beep will be heard from the rear, or the SAFETY SEAT will pulse two times. When an object is very close, five beeps will sound from the rear or the SAFETY SEAT will pulse five times.

The Park Assist System is no substitute for careful and attentive driving. The Park Assist system does not detect children, pedestrians, bicyclists, animals, or objects located below the bumper or that are too close or too far from the vehicle. It is not available at speeds greater than 9 km/h (6 mph). To prevent injury, death, or vehicle damage, even with Park Assist, always check the area around the vehicle and check all mirrors before moving forward or backing.

The REAR Park Assist System can be turned on or off using the infotainment system. To view available settings from the infotainment home screen, touch Settings > Vehicle > Collision/Detection Systems.

HD REAR VISION CAMERA¹

1. View Displayed by the Camera in Radio Screen
2. Corners of the Rear Bumper

Displayed images may be farther or closer than they appear. The area displayed is limited and objects that are close to either corner of the bumper or under the bumper do not display.

The camera(s) do not display children, pedestrians, bicyclists, crossing traffic, animals, or any other object outside of the cameras' field of view, below the bumper, or under the vehicle. Shown distances may be different from actual distances. Do not drive or park the vehicle using only these camera(s). Always check behind and around the vehicle before driving. Failure to use proper care may result in injury, death, or vehicle damage.

¹ Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle's owner's manual for more important feature limitations and information.

STANDARD SAFETY & DRIVER ASSISTANCE FEATURES

Inside rear-view auto-dimming with full camera display. Includes (CWA) Rear Camera Mirror Washer.

The automatic dimming mirror provides a wide angle camera view of the area behind the vehicle. Pull the tab to turn on the display. Push the tab to turn it off. When off the mirror is automatic dimming. Adjust the mirror for a clear view of the area behind the vehicle while the display is off.

The Rear Camera Mirror may not work properly or display a clear image if:

- There is glare from the sun or headlamps. This may obstruct objects from view. If needed, push the tab to turn off the display.
- Dirt, snow, or other debris blocks the camera lens. Clean the lens with Rear Camera Washer or a soft damp cloth.
- The camera's mounting on the vehicle has been damaged, and/or the position or the mounting angle of the camera has changed.

WARNING: The Rear Camera Mirror (RCM) has a limited view. Portions of the road, Vehicles, and other objects may not be seen. Do not drive or park the vehicle using only this camera. Objects may appear closer than they are. Check the outside mirrors or glance over your shoulder when making lane changes or merging. Failure to use proper care may result in injury, death, or vehicle damage.

Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle's owner's manual for more important feature limitations and information.

STANDARD INTERIOR FEATURES

OnStar® (UE1)

 Voice Command Button

 Blue OnStar® Button

 Emergency Button

This vehicle is equipped with a comprehensive, in-vehicle system that can connect to a live OnStar® Advisor for Emergency, Security, Navigation, Connection, and Diagnostic Services. OnStar® services may require a paid subscription. OnStar® requires the vehicle battery and electrical system, cellular service, and GPS satellite signals to be available and operating. OnStar® acts as a link to existing public emergency service providers. OnStar® may collect information about you and your vehicle, including location information. See OnStar®'s Terms and Conditions and Privacy Statement for more details including system limitations at www.OnStar.com (U.S.) or www.OnStar.ca (Canada). The OnStar® system status light is next to the OnStar® buttons. If the status light is:

- Solid Green: System is on.
- Flashing Green: On a call.
- Red: Indicates a problem.
- Off:  System is off. Press the blue OnStar® button twice to speak with an OnStar® Advisor.

Press  or call 1-888-4-ONSTAR (1-888-466-7827) to speak to an Advisor.

Press  to:

- Make a call, end a call, or answer an incoming call.
- Give OnStar® Hands-Free Calling voice commands.

NOTE: Do not activate OnStar if you have no plans of using this feature.

REAR SEAT REMINDER

The message REAR SEAT REMINDER LOOK IN REAR SEAT displays under certain conditions indicating there may be an item or passenger in the rear seat. Check before exiting the vehicle. This feature will activate when a second row door is opened while the vehicle is on or up to 10 minutes before the vehicle is turned on. There will be an alert when the vehicle is turned off. The alert does not directly detect objects in the rear seat; instead, under certain conditions, it detects when a rear door is opened and closed, indicating that there may be something in the rear seat.

The feature is active only once each time the vehicle is turned on and off, and will require reactivation by opening and closing the second row doors. There may be an alert even when there is nothing in the rear seat; for example, if a child entered the vehicle through the rear door and left the vehicle without the vehicle being shut off.

The feature can be turned on or off. Select Settings > Vehicle > Rear Seat Reminder > ON or OFF.

Does not detect people, animals or items. Always check rear seat before exiting.

STANDARD MECHANICAL FEATURES

SERVICE PARTS IDENTIFICATION LABEL

SPID Label Content Now Included with Certification Label. The Service Parts Identification (SPID) label, often located in the trunk or glovebox of a vehicle, lists a vehicle's VIN, RPO codes and other information that identify the content of the vehicle. Beginning with the 2018 model year, much of this information will be available through a QR code on the Certification label.

Software to read the QR code is commonly available for any Android, iPhone or Windows smartphone. Many basic applications can be downloaded for free. Tested QR code readers that are easy to use include NeoReader by NM LLC, inigma by 3GVision, QR Scanner by Honestly App, QR Droid by DroidLa and Bar-Code by PW2. GM does not recommend any particular software. Once the QR code is scanned, the vehicle information will appear in the following order: VIN, Model Year, Model, Build Month, Year, MOTORing Book, Vehicle Order Number, 3 Digit RPO Codes sorted alphanumerically, and the Paint Code (same code appears in the lower left of the QR code).

STABILITRAK CONTROL

The vehicle has a Traction Control System (TCS) and StabiliTrak/Electronic Stability Control (ESC) system.

These systems help limit wheel slip and assist the driver in maintaining control, especially on slippery road conditions.

TCS activates if it senses that any of the drive wheels are spinning or beginning to lose traction. When this happens, TCS applies the brakes to the spinning wheels and reduces propulsion system power to limit wheel spin.

StabiliTrak/ESC activates when the vehicle senses a difference between the intended path and the direction the vehicle is actually traveling.

StabiliTrak/ESC selectively applies braking pressure to any one of the vehicle brakes to assist the driver in keeping the vehicle on the intended path.

If TCS is limiting wheel spin when the accelerator pedal is pressed, the system will not turn off until the wheels stop spinning.

If cruise control is being used and TCS or StabiliTrak/ESC begins to limit wheel spin, cruise control will disengage. Cruise control may be turned back on when road conditions allow.

Both systems come on automatically when the vehicle is started and begins to move. The systems may be heard or felt while they are operating or while performing diagnostic checks. This is normal and does not mean there is a problem with the vehicle.

It is recommended to leave both systems on for normal driving conditions, but it may be necessary to turn TCS off if the vehicle gets stuck in sand, mud, ice, or snow. See "Turning the Systems Off and On" later in the Owners Manual.

PURSUIT MODE

The Pursuit Mode may activate when the vehicle detects continuous high-performance driving. This mode supports extended high demand driving such as law enforcement pursuits. Pursuit Mode modifies steering effort, accelerator and brake pedal tuning, and propulsion control.

Either the Traction Control System (TCS)/Electronic Stability Control (ESC) Light, the Electronic Stability Control (ESC) OFF Light, or both will display in the instrument cluster until Pursuit mode deactivates. The Traction Control System and StabiliTrak/Electronic Stability Control are still functional but operating at a modified level to support high-performance driving. See the "Warning Lights, Gages, and Indicators" section in the Owner's Manual for additional information on these lights.

(EVs Only) Pursuit mode may also limit propulsion power to help control energy use, manage heat, and maintain consistent performance.

Pursuit mode deactivates after high-performance driving is no longer detected, the vehicle remains idling for around an hour, or the vehicle is turned off and on. If Pursuit Mode is deactivated by turning the vehicle off and on again, vehicle performance and feel may vary until brakes and powertrain are fully cooled.

STANDARD ELECTRICAL FEATURES

UNIVERSAL VEHICLE MODULE (KGU)

Provides CAN Readability of selected messages utilizing SAE J1939 formatting. This gateway module offers 10-switchable inputs and outputs, and includes a GUI (Graphical User Interface) SW available to customize the UVM to specific customer needs. Provides access to key vehicle information (CAN Serial Data) and buffer between our Cybersecure vehicle architecture and the "dirty work" side. For instructional videos refer to <https://www.gmupfitter.com/instructional-videos/>

4 Preprogrammed Commanded Features (Specified Input Voltage Range)

- Automatic Vehicle Start
 - Input request commands under hood electrical center start up for up to 8 hours or Low power condition
- Shut Down Inhibit
 - Input request prevents under hood electrical center shutdown
- Increased Engine Idle
 - Input request commands engine idle to fixed RPM value
- Snow-Plow Support
 - Input request commands deactivation of conflicting active safety features
 - Input request headlamps to full dim status

10 input/outputs configurable through GUI. Allows extensive customization of output activation criteria. Outputs are high side drive by default. Configurations can be read/write and stored for multiple vehicles. Various operating parameters available to read only. Downloadable software to configure the UVM from GM Upfitter.com

UVM Application Examples:

- Police upfits that require under hood electrical center momentary start up feature to control the HVAC climate system for K9 vehicles.
- Large Fleet customers that use telematic equipment (Geotab) to monitor mileage and idle CAN bus messages for vehicle maintenance/service schedules.

UVM youtube instructional videos:

- UVM Configuration Tool
<https://www.youtube.com/watch?v=fTDnJdIY1uk>

Module and user harness located right rear interior quarter panel.

STANDARD ELECTRICAL FEATURES

SURVEILLANCE MODE – SEO 5J3

The Blazer EV Police and Special Service Package has a Body Control Module (BCM) calibration which disables all automatic exterior and interior lighting.

When activated, with the exterior lamp control in the auto position, the exterior and interior lighting will be disabled or dimmed to a minimum federally regulated level.

For detailed technical information on activation of this feature, refer to the vehicle technical guide under the Body Builder Manuals section on www.gmupfitter.com.

RADIO MUTE FEATURE

A Radio Mute circuit (#10137) is provided to permit muting of the vehicle radio when an emergency vehicle radio is transmitting. It is the Gray/White blunt cut wire located between the front seats near the upfitter branch harness.

The following customer device electrical specifications must be met to avoid damage to the vehicle Exterior Lighting Module (ELM) input circuitry:

- No inductance allowed
- Maximum Load Capacitance: 600 nano-farads.
- Maximum Closed switch contact resistance: 20 ohms
- Minimum Open switch contact resistance: 100,000 ohms

EXTERIOR LAMPS EMERGENCY FLASHING SYSTEM

Standard 6J7 provides headlamp high beam flashing and rear lamps flashing via the Exterior Lighting Module (ELM). The exterior lamps flashing is activated by customer switching of ground circuits in the upfitter harness located between the front seats (CONSOL) in the rear cargo area (CARGO).

Headlamp high beam flashing is activated via connection of upfitter circuit 8863 to ground via customer switching. The headlamps and high beam indicator will flash alternately at 3 flashes per second. Rear lamps flashing is chosen by the customer to flash either Red-White alternately (Brake lamps and Reverse Lamps, grounding upfitter circuit 8865) or Red-Red alternately (Left and Right Brake Lamps, grounding upfitter circuit 8864). The rear lamps flash rate is 3 per second. Depressing the Brake pedal will override the brake lamp flashing and placing the transmission in Reverse will override the reverse lamps flashing.

During daylight conditions, the Daytime Running Lamps (DRL) are automatically turned off whenever the Lamp Flashing System is activated. During night time conditions the low beam headlamps and tail lamps automatically turn on while the high beams flash. Turning on the high beam headlamps will override high beam flashing. If Option 9G8 is present the low beam head lamps and tail lamps must be manually activated. The Center Mounted Stop Lamp will operate only when the service brakes are applied.

NOTES:

- Wiring connection or splice changes are to be removed before the vehicle is returned to civilian use.
- For wiring diagram see Wiring Section

PROTECTED IDLE

The Protected Idle Feature allows the vehicle to remain idling but will not allow the transmission to be shifted from Park without a valid key fob.

ACTIVATING PROTECTED IDLE

Preconditions (All preconditions must be met.)

- Vehicle is in PROPULSION (engine running) state.
- Vehicle is in Parked State.
- Vehicle speed is less than 4 kilometers per hour.
- Valid key fob is present.

Activation

- Put vehicle in park, remove foot from brake.

Vehicle Feedback.

Upon activation of Protected Idle, the Digital Information Center (DIC) will display the following:

“Protected Idle ON take your key to secure vehicle.”

If any of the above preconditions are not met while activating Protected Idle, DIC will display the message: “Protected Idle Unavailable”

DEACTIVATING PROTECTED IDLE

- Valid key fob is present
 - Press brake pedal and shift out of Park OR
 - Press and hold the Cruise Cancel Switch for 2 seconds OR
 - Press the Ignition Switch with the Brake Pedal pressed.
- DIC messages will turn off, indicating Protected Idle is no longer activated.

CONDITIONS UNDER WHICH THE PROTECTED IDLE WILL TURN OFF AND VEHICLE WILL TRANSITION TO OFF POWER MODE

- Brake pedal pressed without a valid key fob present OR
- Cruise Cancel Switch depressed without a valid key fob present OR
- Ignition Switch pressed without a valid key fob present OR
- With a valid key fob present, ignition switch is pressed and brake pedal is not pressed (the system treats this action as a customer request to turn OFF the vehicle.) OR
- Engine stalls. Horn chirps occur. OR
- Low State of Charge (SOC) condition. Horn chirps occur.

CONDITIONS UNDER WHICH THE PROTECTED IDLE WILL TURN OFF AND VEHICLE WILL TRANSITION TO RUN POWER MODE.

If the Shift Lock mechanism is defeated and shifted Out of Park while the Protected Idle is active, the vehicle will transition to the RUN power mode (the engine will be turned off) and Protected Idle will be deactivated and Horn chirps occur. DIC messages will turn off indicating Protected Idle is inactive.

ALWAYS PROPERLY SUPERVISE A VEHICLE WHEN PEOPLE OR ANIMALS ARE INSIDE WHEN THE ENGINE IS IDLING.

OPTIONAL FEATURES

OPTIONAL FRONT AND REAR WHELEN CORNER LIGHTING

Shown with equipment from independent suppliers not covered by the GM New Vehicle Limited Warranty.
GM is not responsible for the safety or quality of independent supplier alterations.

OPTIONAL FEATURES

T53 REAR LIFTGATE WARNING LIGHTS

REAR CARGO AREA (SHOWN WITH FALSE CARGO FLOOR) REMOVED.

Shown with equipment from independent suppliers not covered by the GM New Vehicle Limited Warranty. GM is not responsible for the safety or quality of independent supplier alterations.

OPTIONAL FEATURES

7X3

LED SPOTLAMP

15 cm High Intensity LED spotlamp mounted to left A pillar. The lamp is protected by a 15 amp fuse in the under hood Battery Disconnect Unit (BDU). See your dealer or www.gmupfitter.com for lamp replacement procedures

6C7

AUXILIARY DOME LAMP

Auxiliary dome lamp is located on the headliner to the rear of the overhead console and is switched at the rear lamp base. Lamp is wired separately standard dome lamps with red and white LED bulbs.

SDE

TRAILER HITCH

Removable 2" (Class 2.) receiver. Requires (V92) trailering provisions and (VLG) trailer hitch closeout panel.

VLG

TRAILER HITCH TRIM BEZEL

Requires (SDE) removable trailer hitch." at bottom.

OPTIONAL FEATURES

6N5

SWITCHES – REAR WINDOW INOPERATIVE

Calibration for rear windows to operate from drivers position only.
Rear door window switches are inoperable.
Rear door power regulators are operable only from driver position switches.
Rear door window lockout switch remains illuminated in all positions when equipped with this feature.

6N6

REAR DOOR LOCKS AND HANDLES INOPERATIVE

Rear door locking rods are disabled.
Rear door locks are inoperable at rear doors, but operate from driver position. Inside rear door handles are disconnected.
Rear doors can only be opened from the outside.

6E2

FLEET KEY & REMOTE FOB

6E8

The Fleet Key allows the mechanical key to operate an entire fleet of vehicle locks and allows an unlimited number of remote keys to be paired for Keyless Open / Keyless Start and Protected Idle feature. Use of this on other fleet keyed-a-like vehicles will be limited to locking or unlocking the driver's door by pressing the exterior door handle button and starting the vehicle once inside. Note that a vehicle is only capable of recognizing the last 8 remote keys programmed for remote button functions. Adding a 9th remote key will bump fob #1 button functionality until it is reprogrammed, Adding remote #1 back into the infotainment screen will bump fob #2 remote button functionality, etc. There are no limitations to the amount of fleet keys that will be recognized for Keyless Open/ Keyless Start of the vehicle. Purchasing extra KEY/FOBS and programming is a customer's responsibility. See your dealer for additional information regarding availability of more KEY/FOBS. Requires AMF. Includes Fleet Common Key AU7.

AMF

PACKAGE OF FOUR UNPROGRAMMED REMOTE KEYS

AMF allows for an unlimited number of REMOTE KEYS to be paired for keyless start and keyless open, only the last 8 REMOTE KEYS learned will have the REMOTE KEYS buttons work for that vehicle. The programming procedure requires that TWO* previously learned REMOTE KEYS be present in the vehicle as well as the new unprogrammed fobs.

PROGRAMING PROCEDURE:

1. Two* previously paired Remote Key must be in the vehicle.
Place the Remote Key you want to pair in the transmitter pocket.
2. On the infotainment home screen, select;
Vehicle>Settings> Remote Lock, Unlock, Star > Remote Key Pairing.
3. Follow the on-screen instructions.

*Note: Vehicles equipped with option (6E2) or (6E8) will only require ONE previously paired remote keys to program additional fobs.

9G8

DRL & AHC DISABLED

Daytime Running Lamps (DRL) and Automatic Headlamp Control (AHC) are deleted. Also disables automatic interior courtesy lighting. Main light sensor now works for day and night mode to allow dimming at any-time. See your dealer to restore the DRL and AHC to normal operation. With 9G8, the instrument cluster displays are dimmable only when the exterior lamp control is in the parking lamp or headlamp position.

UTQ

THEFT DETERRENT DISABLE

Theft-deterrent system content is disabled.
The alarm and horn become non-functional in an attempt of theft to the vehicle (recommended for vehicles utilizing 6E2 or 6E8 key codes).

WIRING

Original Equipment Alterations: Limited warranty does not cover any damage or failure resulting from modification or alteration to the vehicle's original equipment as manufactured or assembled by General Motors. Examples of the types of alterations that would not be covered include: installation or use of any non-GM part, accessory, materials, or the cutting, welding or disconnecting of the vehicle's original equipment parts and components. Any upfit device¹ connected to the open ended blunt cut circuits should be fuse protected per the "Wire Gage Table" on page 45

AIRBAGS FAQ

Q: Can equipment such as radar devices, video cameras, and radio trees be mounted in a specialty vehicle equipped with a right front passenger frontal airbag?

A: Yes, but care must be taken to properly mount the equipment outside of the airbag "deployment zone."

Q: What is the airbag "deployment zone"?

A: The term "deployment zone" describes the space an airbag takes up when fully inflated. Airbags need room to work properly, and anything in the "deployment zone" – such as improperly mounted equipment – can greatly affect the performance of the airbag.

Q: How can I identify the airbag "deployment zone" in my vehicle?

A: See Airbag Deployment Diagrams for more information. The diagrams provide the approximate dimensions of the "deployment zones" for your specialty vehicle. Before doing any service work, including the installation of any equipment, consult the appropriate service manual.

Q: Is it possible to shield equipment so it does not interfere with airbag deployment?

A: While shielding may protect certain equipment from being damaged or dislodged, it may also negatively affect how an airbag inflates. Therefore, we do not recommend the placement of any equipment in the deployment zone, even if shielded.

Q: Can the installation of push bumpers on the front end of the vehicle affect the deployment of the airbag?

A: It is not likely that installing push bumpers will affect deployment for the airbag as long as the vehicle structure itself is not modified. GM is not aware of any adverse defects effect on the deployment of the front airbags due to use of many aftermarket push bumpers installed on current GM police vehicles See "Adding Equipment to the Airbag-Equipped Vehicle" in the owner manual for more information.

See "Adding Equipment to the Airbag-Equipped Vehicle" in the owner manual for more information.

Customer-Installed Equipment

Before installing equipment, read the following.

- Airbags inflate with great force, faster than the blink of an eye. No objects, such as shotguns, should be placed over or near the airbag covers. Equipment mounted too close to an inflating airbag could prevent the airbag from operating properly to protect the occupants or could be forced into an occupant or break and become a dangerous projectile, causing severe injury or even death. To help prevent injury and to allow the airbag to perform as it was designed, do not mount equipment inside the airbag deployment zones.
- Do not attach anything to the steering wheel hub or mount any equipment within the deployment zone for the driver airbag.
- Do not mount equipment on the passenger side of the instrument panel top pad deployment zone. Equipment should not be mounted on or around the passenger airbag opening because of a deploying airbag. To allow the airbag to perform as it was designed, do not mount equipment inside the airbag deployment zone.
- Do not mount a security barrier such that the ends of the barrier or brackets are within the roof-rail airbag deployment zones.
- Avoid installing wiring for roof-rail emergency lighting or radio antennas that may restrict the proper deployment of the roof-rail airbags.
- GM approved service procedures must be followed to remove and reinstall the instrument panel to the pad to ensure proper airbag deployment.

ONSTAR OPTIONS

P0U¹	ONSTAR PROTECT - Includes up to 12 Months of OnStar Protect. Emergency Advisors and Security Services.
P0J¹	ONSTAR PROTECT - Includes up to 24 Months of OnStar Protect. Emergency Advisors and Security Services.

Lytz Surfsight AI-14 camera hardware unit is included in price of Video Telematics with Hardware plan. Installation of camera hardware is not included.
PQT⁵	ONSTAR VIDEO TELEMATICS WITH HARDWARE - Includes hardware and up to 60 months of OnStar Video Telematics. Requires additional paid Telematics plan and is subject to terms. Lytz Surfsight AI-14 camera hardware unit is included in price of Video Telematics with Hardware plan. Installation of camera hardware is not included.

1. Working electrical system, cell reception and GPS signal required. OnStar links to emergency services. Service coverage varies with conditions and location. Service availability, features and functionality vary by device and software version. See gmfleet.com/software/onstar for details and limitations. Non-transferable and non-refundable. Requires (UE1) OnStar. Requires one of the following US Fleet or Government order types: FLS, FNR, FRC, FBC, FGO or FEF. Not available with other OnStar Protect plans, R8G, RFH, R8P, R8Z or R8W. Not available with a ship-to of Guam, Puerto Rico or the Virgin Islands.

2. OnStar Telematics does not include emergency or security services. Eligible customers must sign up for an account at gmfleet.com/software/onstar. Active connected vehicle services, working electrical system, cell reception and GPS signal required. Service coverage varies with conditions and location. Service availability, features and functionality vary by vice and software version. See gmfleet.com/software/onstar for details and limitations. Non-transferable and non-refundable. Requires (UE1) OnStar. Requires one of the following US Fleet or Government order types: FDR, FLS, FNR, FRC, FBC, FGO or FEF. Not available with other OnStar Telematics plans, R8G, RFH, R8P, R8W, or R8Z. Not available with a ship-to of Guam, Puerto Rico or the Virgin Islands.

3. Working electrical system, cell reception and GPS signal required. OnStar links to emergency services. Service coverage varies with conditions and location. Service availability, features and functionality vary by device and software version. Requires eligible vehicle. Streaming services vary with conditions and location. Terms apply. See gmfleet.com/software/onstar for additional details and limitations. Requires (UE1) OnStar and (VV4) Wi-Fi Hotspot capable. Requires one of the following US Fleet or Government order types: FLS, FNR, FRC, FBC, FEF. UPFITTER INTEGRATION LINKS

GM upfitter Integration Technical Bulletins are intended for use by professional technicians, NOT a do-it-yourselfer. They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service and/or modification of a vehicle. These properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle or that your vehicle will have that condition. Contact GM Upfitter Integration or information on whether the information is applicable to your vehicle.
